Hi! I'm Doreen Hickey

The inspiration for my candles comes from my youth growing up in Knockferna, Co Limerick. Knockferna is known as "Hill of the Fairies" with its mystical scenery it has inspired me to make candles that remind me of those days roaming through the fields smelling the hay and fresh wild flowers these scents have evoked memories of a far away time, of cups of cocoa in front of a roaring fire.

Here at Fernia Candles every candle we make is hand poured in small batches with as much love and care as possible. From the first pour right through to labelling we ensure that the quality is consistent and lovingly created.
